MINIMAL BENCH/DAYBED

Please make sure that the furniture is correct assembled before usage.

Be aware that wood is a living material changing imperceptibly over time. All wood reacts to sunlight, humidity, temperature and can vary slightly in grain pattern and coloration.

Please use only warm soap water when cleaning and dry immediately with a soft cloth. The solid oak is treated with oil. If the surface of the oak wood dries out you might be able to restore its original glow by applying linseed/ flaxseed oil to the product. Follow the instruction label of the oil carefully and consult a professional before starting.

The black version is lacquered making it able to withstand dirt and grease to some degree. When cleaning the products use only a damp cloth and dry immediately with a soft cloth to prevent water marks and stains.

Please arrange the furniture carefully to prevent scratches on the floor.

Don't stand on the furniture!
